Microfinance: Translating Research into Practice

The Third Annual Microfinance Conference hosted by the Centre for Microfinance

This conference will feature renowned development economists and CMF research partners Abhijit Banerjee (MIT), Prof. Rohini Pande and Jonathan Morduch (NYU). The conference will feature results from the much-cited CMF-JPAL study on the impact of Spandana's expansion into the slums of Hyderabad. Dr. Nachiket Mor and Ms. Bindu Ananth will also partake and we expect the discussion to be heated, to accurately reflect the implications of our work for the sector and to discuss how best to continue the debate on impact.
