Reuters on the Use of Artificial Intelligence to Target Aid

"We need to use cutting-edge solutions to our problems because you don't solve problems in 2022 using methods of 20 years ago," IPA board member and Togo's Minister of Digital Economy and Transformation [Cina Lawson](#) explained to Reuters in a story on the potential for artificial intelligence in international aid. A key exhibit in the article is IPA's [project in Togo](#) using AI to help identify rural poor in urgent need of aid during the COVID crisis.
